

Labelling and Safety Solutions

Machine Guarding – GREEN FAST

Our machine guarding and safety systems are tailored exactly for you. All safety equipment is designed and manufactured to Machinery Directive 2006/42/CE.

An innovative, patented machine guard system without uprights.

The system is extra-fast to assemble, consisting of self-standing panels with frames, 30mm x30mm baseplate, locking fork and upper flexible couplings. The Green Fast system has also been designed to be perfectly compatible with the other systems.

The Green Fast protection system has been designed by SATECH to simultaneously achieve easy and fast assembly, strength, and wide range of height adjustment – all at low cost. In the Green Fast protection system panels are fastened to the floor and each other by means of two patented connection components, upper and lower.

All SATECH products have been designed in accordance with the European Directive on the Safety of Machines (2006/42/CE).

70% TIME SAVED
Compared to traditional systems

-  RAL 9005
-  RAL 1021
-  RAL 7035
