

# Steel Partitioning – SINGLE SKIN

**This system is an ideal solution when a high quality, economical partitioning system is required for manufacturing and storage areas.**

Single skin partitioning panels are constructed from 43 x 43 x 1.2 mm (18g) cold rolled angles and 32 x 32 x 0.7mm (22g) cold rolled tee bars with 0.8mm (21g) CR4 mild steel or 50 x 50 x 3mm (10g) weldmesh sheets spot welded into the framework.

We produce fully detailed layouts for any proposal prior to the commencement of work.

### Standard panel sizes

Height	2400, 2700, 3000mm
Width	1000mm
Dado Height	1200mm
Thickness	43mm

A range of infill and special size panels can be supplied to maintain final dimensions.

### Glazing

6mm toughened and 6.4mm laminated are supplied as standard. However, other types of glass and Perspex may also be fitted as required.

### Paint finish

All panels are electrostatically powder-coated in the following standard colours: Grey 10 A 07, Grey 00 A 05, Sandstone 08 B 17 and Stone 10 B 17. Special colours (more than 100 in stock) are available at extra cost.

### Accessories

A comprehensive range of accessories, including drop-down and sliding hatches, louvres, vents and locking systems are available to order.

### Major galvanised mesh partitioning – 1" x 1" and 2" x 2"

We supply major galvanised mesh partitioning systems that offer the ideal solution when a well-ventilated, secure area is required.

“Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, offering clients a quality-driven, total solution via multi-channel procurement methods.”
