

Safety Signs

Safety signs are a legal health and safety requirement within the working environment.

Our comprehensive range of safety signs provides a quick and cost-effective selection of UK standard signs as well as offering a bespoke design service to meet your specific needs.

Manufactured using a range of base materials including rigid plastic, Foamex, self-adhesive sheets and metal-coated plastic, ensures that we supply the best and most suitable signage for your needs.

Our safety sign range covers external site safety signs, construction safety signs, internal safety and directional signs as well as the commonplace safety signs seen in all commercial buildings.

We provide a full site survey and recommendation service as well as a fully-managed installation provision so the customer can concentrate on day-to-day activities.

If you have a bespoke warehouse safety sign requirement, we will provide advice on the important visual considerations, sign fixings, material choices, colours and installation..

“Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, offering clients a quality-driven, total solution via multi-channel procurement methods.”

Tony Gresty
Managing Director – Warehouse Partners
