

A GUIDE TO INSTALLATION

An easy-to-follow installation guide to ensure the correct fitting of MezzNets™ 10m handrail netting.

1

Secure the net to the starting post using 4-6 cable ties down the length of the post

2

Loosely cable tie the top of the net to the handrail along the entire length – ensuring that the net falls behind any mid support rail

3

Once secured, continue to cable tie the top of the net to the top of the hand rail at every 4th pocket

4

Attach P clips to the bottom of the net at same spacing as cable ties

5

Using the wood screws, screw the P clips into the floor

Kit includes:

10m x 1.1m
2.3mm grade polypropylene
net – 40mm x 40mm pockets

100 x
Cable ties

100 x
P clips

100 x
Wood
screws

“Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, offering clients a quality-driven, total solution via multi-channel procurement methods.”

Tony Gresty
Managing Director – Warehouse Partners

Labelling and Safety Solutions to reduce time and costs

Products available:
